Unboxing video

You got the perfect video: <https://www.youtube.com/watch?v=qp8IL996ABl>

But we are missing your recording result to point out slow rotating. Pls do make local recording with ART200.

For example:

1days 180degree for 2mins video

<https://www.youtube.com/watch?v=HZsUgA9IU6U>

Recording in UK

https://youtu.be/g_fWQdnfVMk

Great video result intro why slow speed mater: <https://www.youtube.com/watch?v=sJWNNdWtcic>

Q&A

Q1 What is Brinno bluetooth Pan Lapse rotating camera stand?

The Brinno Pan Lapse ART200 is a Bluetooth (BLE 4.0) rotating camera stand, it allows you to take smooth panning videos and panoramic time-lapse videos with your Brinno camera, action sport camera, smartphone, or light weight camera.

Q2 How to set up the Brinno Bluetooth Pan Lapse Rotating Camera Stand?

Programmable via Brinno's smartphone app, which connects via Bluetooth (Android 4.3 or higher) and Apple iOS

Q3 Available Versions of Brinno Pan Lapse app?

compatible with Android 4.3 and above or Apple iOS

Q4 What is the time interval on Brinno Pan Lapse app?

Image capture occurs anywhere from once every second to once every 240 seconds.
For example: time interval sets to 1 = 1 sec./panning 1 time; sets to 10 = 10 sec./panning 1 time.

Q5 Can the Brinno Pan Lapse App be used as 'set it and forget it'?

Yes, absolutely. When the ART200 starts panning after finishing the set up, you can leave it and forget it which will provide the smooth time lapse video afterwards.

Q6 I have the Brinno Pan Lapse App download and connected to ART200 and the Bluetooth LED indicator is on, why I still am unable to have it panning?

Please have the app updated. Restart the app after updating, then, Brinno ART200 is ready to trigger your camera for timelapse.

Q7 How do I use Brinno ART200 with the time lapse camera(s)?

Please set up the time interval the same on both time lapse camera and ART200 in order to

Q8 How to use the Brinno ART200 with other photography equipment?

The Pan Lapse Camera Stand has a standard 1/4"-20 thread on its underside for mounting on a tripod, slider or any other device with 1/4" screw thread. And another on top for either a camera or the included smartphone clamp.

Q9 How can I attach Brinno ART200 to a smartphone?

Brinno ART200 comes with a smartphone clip to slot your smartphone onto the mount and rotate it in timelapse mode, panoramic mode or using a timelapse app.

Q10 Does it automatically reset to presetting after shut down?

No it does not. But all you have to do is reposition the camera. If it's on a tripod or stand that turns then just reposition the direction the tripod faces. And it will go either left and right as you program it.

Q11 How long is the batteries life for Brinno Bluetooth Pan Lapse Rotating Camera Stand?

The two included AAA batteries will run up to 30 days, depending on phone/camera weight and speed setting.

Q12 Does this have an option to plug in a power source?

No, it does not. the art200 does not have a power option, it's x2 AAA batteries only.

Q13 Which Apps do I need?

We built the Brinno Pan Lapse app to help you discover and download apps optimized for use with ART200. Download the Brinno Pan Lapse app.

Q14 How do I turn ART200 on?

A PDF instruction manual is available [here](#).

Q15 What is the maximum speed the Brinno Bluetooth Pan Lapse Rotating Camera Stand ART200 can move?

When speed was set in Turbo, the ART200 will rotate 360 for 75 seconds.
